Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-15,21-35, drawn to an industrial control system interface wherein the first and second interface program execute to provide a protocol, classified in class 709, subclass 230.

II. Claims 16-20, drawn to an industrial control system interface, classified in class 715, subclass 700.

2. Inventions II and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP. § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the broadest combination claim i.e. claim 16 does not recite a particular “wherein the first and second interface program execute to provide a protocol” found in the broadest subcombination claim 1. The subcombination has separate utility such as an industrial control system interface requires a specific protocol that can use pre-written software objects to implement the interface.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. During a telephone conversation with Keith M Baxtex on 1/19/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the

Art Unit: 2142

currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Hieu Le whose telephone number is (703) 306-3101. The examiner can normally be reached on Monday to Friday from 8:00 AM to 4:00 PM.
